Becoming a DEF CON CTF 2015 Qualifying Competition

Do you run a Capture the Flag or other computer security competition? Want to have that elite prize that brings top-tier competitors? Want to have your winners move on to DEF CON finals? Become a DEF CON CTF 2015 Qualifying Competition!

UPDATED Nov. 17 2014: "Your competition MAY have both offensive and defensive components." The previous version had "SHOULD" there.

The key words "MUST", "MUST NOT", "REQUIRED", "SHALL", "SHALL NOT", "SHOULD", "SHOULD NOT", "RECOMMENDED", "MAY", and "OPTIONAL" in this document are to be interpreted as described in RFC 2119.

Running a Competitive Competition

DEF CON CTF competitors are the best in the world. When less-qualified teams compete, they don't enjoy the game, and don't provide a lot of enjoyment for other teams either. Therefore, we must ensure only the most qualified teams are invited. Our standards are as follows:

1. Your competition MUST be open to all. You MUST NOT restrict entry or winning to students or professionals. You MAY structure your game with separate qualifying and finals events.
2. You MUST NOT charge a fee to competitors, except for normal admission to a conference.
3. Your competition MUST allow teams of at least four people.
4. You MUST publish a final scoreboard within seven days of competition ending.
5. You MUST be able to privately share the winning team's contact information with us within seven days of competition ending.
6. You MUST NOT publish personal information about competitors for any reason.
7. You MUST NOT announce DEF CON CTF qualifying status prior to a Legitimate Business Syndicate announcement of same.
8. You MUST either have run a competition previously, or be willing to share details and challenge samples with Legitimate Business Syndicate prior to approval.
9. Your competition MAY have both offensive and defensive components.
